

# Plymouth High School for Girls

*"For life, not school, we learn"*

22<sup>nd</sup> September 2020

Dear Parents and Carers,

You will receive by email an invitation to sign up for the SIMS parent app. The email will have an activation code and will take you straight to the website. Once you have logged into the app you can then download the SIMS parent app to your phone.

The website is [sims-parent.co.uk](https://sims-parent.co.uk) and the app is called SIMS parent and the icon looks like this:

Once you have the app on your phone or are able to log into the website - we would ask that you check your child's contact details, to ensure they are correct and up to date. Please edit any details that are not correct. Any changes that you make will not update immediately, as they need to be authorised on the school's system, which will be completed within one working day.

We are aware that some parents activated the app last school year, so if you are already using the app then please ignore the invitation email and please just check that the contact details are up to date. The SIMS parent app will be sent to all parents with parental responsibility and each parent can have their own log in and can amend their own contact details separately.

Initially the app will only show you your child's timetable and enable you to update student details, but the school's plan is to use the app for much more such as communicating your child's report, rather than printing it. So, it will be essential for you to have the app downloaded.

If you have any queries please do not hesitate to contact the school and me in the first instance.
