

Plymouth High School for Girls

"For life, not school, we learn"

21st September 2020

Dear Parent/Carers,

We know that in some cases parents and carers have had difficulty in booking a test for COVID-19 for young people with symptoms. If you are unable to book a local test, please do use this email to explain that you have attempted without success to book a test for a symptomatic young person and that your child attends a Plymouth school, d-ccg.cornwalldevon.urgenttesting@nhs.net

Plymouth City have set up an additional local testing site this week in conjunction with local partners Livewell. The team will triage those families with children and adults with symptoms and book them in for a test and provide information on how to get to the site.

A priority is given to key worker parents, to help support the local key worker workforce and get staff back to work.

Best wishes,

Simon Underdown.
Headteacher.
