

Y11/Y12 Psychology Research Task: Summer 2023

Make a short Prezi or Powerpoint of your answers to the following questions after doing some research.

- 1.) What is Psychology?
- 2.) Find a 'famous' psychologist and briefly outline their contributions or controversies.
- 3.) Find a controversial psychology experiment in Psychology and briefly detail it.
- 4.) What is validity? Why is it important in psychology experiments?
- 5.) Pick **a line** from the following song "Everybody's free (To wear sunscreen)" by Baz Luhrmann (the lyrics are here <http://www.scribd.com/doc/3692/Wear-Sunscreen>, but listen to it on Youtube (link in the padlet) and write about why **that line** seems to be relevant to one of the four main approaches in psychology: behavioural, cognitive, biological, and or psychodynamic (Freudian).

Note: Presentations should be visual but **not text** heavy.

Have a good summer. Mr B

Extension: If you want to login to the electronic version of the textbook for year 1 to do some pre-reading it's here....
